

IN THE ABSTRACT

Page 9, lines 2-10 have been amended as follows:

A nail stapler includes a magazine for containing nails and a gun for shooting the nails from the magazine. The gun includes a shell, a solenoid put in the shell, a mandrel put in the shell to be attracted from an original position to a punching position by ~~means of~~ the solenoid, a hammer secured to the mandrel and inserted through the solenoid, a spring for moving the mandrel to the original position from the punching position against the solenoid and a security device put in the shell for slowing down the mandrel when the mandrel is moved to the original position from the punching position by ~~means of~~ the spring.
